### Installation and deinstallation of fuel heater WK 939/2 z

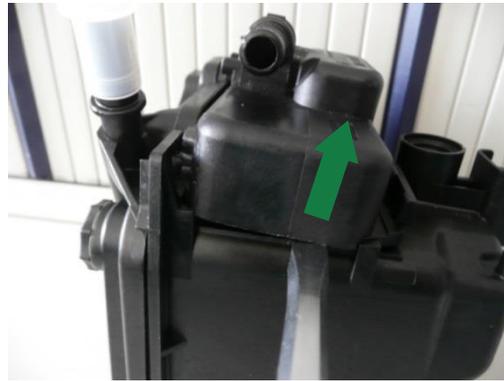

The installation and deinstallation of the MANN-FILTER fuel heater WK 939/2 z can cause difficulties. To avoid these, you should carry out following instructions:

#### Installation

- 1** Put the fuel heater into the guide in an oblique position.
- 2** Push the fuel heater up to the stop.
- 3** Push the fuel heater down by using both thumbs until you hear a click sound.

#### Deinstallation

- 1** Press up the plastic bracket with the help of a screwdriver and pull out the fuel heater at the same time.
- 2** Use the screwdriver to lever the heater out.
