

Electric fuel pump for Mitsubishi and Volvo

Note the scope of supply of spare parts!

Vehicle: Mitsubishi, Volvo	Product: Electric fuel pump, pre-assembled		
	PIERBURG no.	Replacement for	OEM no.*)
mitsubishi Carisma 1.6i/1.8i/1.8 GDi	7.02701.05.0	7.02700.57.0	MR439567
volvo S40/V40 1.6i/1.8i	7.02701.06.0	7.00468.64.0	30611490; 30864216
volvo S40/V40 1.9i/2.0i turbo	7.02701.07.0	7.00468.65.0	30611161; 30611491

We now offer three new products in PIERBURG quality, these are spare parts kits for vehicles made by Mitsubishi and Volvo, for which the delivery unit flange cover is no longer available from the supplier.

! These spare parts kits mean that the old fuel delivery unit flange cover has to be re-used. It must therefore be detached from the rest of the fuel delivery unit.

Fitting instructions enclosed

The in-tank pump is supplied pre-assembled within the swirl pot.

The simple exchange operation is clearly described in the fitting instructions (supplied with the pump).

Note the scope of supply!
 Only the swirl pot with the pre-assembled fuel pump is replaced.

Products may change and may not be as depicted in photographs. For classification and spares see the current catalogues, TecDoc-CD or systems based on TecDoc data.
 *) The reference numbers listed are for purposes of comparison and should not be shown on invoices to the end customer.
