Design improvements for VKJC 5205 – VKJC 5198

See table below

Refer to the complete application list for detailed information

In order to provide a kit more in line with the vehicles performances, a new boot has been implemented

CAR MAKER	CAR MODELS	START DATE	END DATE
VWVW	TRANSPORTER V	2003-04-01	2009-11-30

OLD DESIGN: not suitable for high steering angles.

NEW DESIGN: suitable for high steering angles.

The new design of the wheel-side CV-Joint boot allows the boot to keep its characteristics even with the highest steering angles, leading to a reduced stress and longer life for the boot itself.
